Syllabus

Course Syllabus

Introduction

Recruitment and selection employees whose duties involve attracting, short listing and selecting candidates to fill vacancies. The program is also designed for professionals working in recruitment agencies and executive search firms.

Objectives

- Define the importance of interviewing as a method of selection.
- List the common mistakes untrained interviewers commit and define ways to overcome them.
- Discover the main types of selection interviews and when and how to use each.
- Design an interview guide and use it in order to collect 'code-able' data from interviewees.
- Use probing techniques designed to uncover behavioral characteristics of applicants.

The HR Administrator in Organizations

- Differences between Bad and Good Interviews

The Interview as a Method of Selection

- Selection Methods
- Prevalence of the Interview as a Selection Method
