Introduction

Why Choose this Course?

This course offers a step by step journey from problem identification to solution generation and additionally to evaluate creative techniques that challenge more traditional models of "outcomes thinking". It offers wide range of tools and techniques and insights into how leaders can inspire the creative process within themselves and their teams and the wider organisation. Delegates will leave energized and convinced of their creative potential. Decision making and problem solving represent the most important of all managerial and leadership activities; if you can make timely, well-considered and informed decisions, then you can lead your team and organisation to deserved success.

- How to balance the logical and creative dimensions of problem solving
- Assessing personal creativity and challenge the mental blocks that limit our thinking
- How to build an agenda for creative leadership

objectives

By the end of this course, participants will be able to:

- Determine pragmatic methods for effective problem solving
- Appreciate the impact of personality on the decision making and problem solving process
- Evaluate and apply a structured approach to generate solutions to organisational issues
- Assess personal and organisational creativity and set an agenda for progression
- Apply appropriate creative problem solving techniques that generate original solutions
