Course Syllabus

Introduction

No business should be without top-flight quality management. Quality Management ensures that your customers always receive the product or service that meets or exceeds their expectations. It decreases time to market and so helps in promoting international trade and enhancing marketing.

Implementation of Quality Management in a product or service lifecycle will actually deal with the root cause of problems, by decreasing rework, manpower usage, and increasing productivity, process improvement, providing better Customer Satisfaction and thus retaining the customer's in the existing competitive market. This course will set any business on the path to achieving the quality demanded by customers.
