### Course Syllabus

#### Introduction

This programme focuses on mastering interpersonal skills and generating the dialogues and behaviours that develop working relationships and personal effectiveness. It will introduce the benefits of being emotionally intelligent and using it to advantage. It will facilitate an understanding of personal style and how this impacts on self and others. The emphasis is on communication techniques through a series of experiential learning activities; an “open mind.” is essential for this highly interactive workshop.

#### Highlights include:

- Building your unique value proposition for the organisation
- Relation management techniques using Relation Awareness Theory
- Communicating with impact and influence
- Communication skills which motivate and engage others employees

## **By the end of this course, participants will be able to:**

- Create and develop a sense of personal responsibility which can proactively manage a interpersonal relationships for productive outcomes.
- Evaluate psychological research to construct unique perception of self & relate what value that this "personal brand" brings to organisation.
- Calculate the effectiveness of current work based networks, select and formulate action activities to strengthen professional support systems.
- Appreciate the value of diverse opinion and manage conflict interactions as a tool for generating creative organisational outcomes.
- Analyse and operate strategies that build emotional hardiness and resilience to face daily challenges effectively.
